

AirBar in the press

"Getting a response from touching MacBook Air's screen is oddly satisfying."

APPLEINSIDER

"It's what you've always wanted. A 13-inch MacBook Air with a touchscreen. We've all done the same thing, reaching out to tap or swipe a MacBook before realizing it was, in fact, a MacBook and not a touchscreen Windows laptop. Put a MacBook Air in front of any kid under 10, and they'll instinctively do the same thing."

CNET

How to order AirBar

www.air.bar

Order now! The AirBar touchscreen sensor is available for both MacBook Air and PC.

Unique and great

AirBar is powered by Neonode's proprietary zForce AIR™ technology. All AirBar products include AlwaysOn™ sensors.

Neonode

Neonode is a global technology company, with over 40 million customer devices on the market.

Neonode has developed the optical touch technology found in some of the world's greatest consumer products from manufacturers such as HP®, Sony®, Alpine®, Amazon® and many others. Our optical touch technology is now available as a modular component for easy integration into the next generation of consumer, business and automotive products.

AIRBAR™

Touch when you need it

Imagine taking a non-touch PC or Mac notebook, and within seconds making it a touch interactive device.

You simply connect the AirBar touchscreen sensor and then start to interact with the display immediately – it's Plug-and-Touch.

Compared with today's PCs with built in touch, the AirBar sensor keeps your high quality matte display glare free and without greasy finger prints.

Choose the notebook you want and let AirBar provide the touch when you need it.

Four fabulous features

Plug-and-Touch

Attach with the magnets provided & plug into the USB port.

Touch Using Any Object

Your finger, or with gloves, and even a paintbrush.

Enhanced User Experience

Pinch, sweep, zoom, and scroll without glare.²

Compatibility

AirBar works with 13.3" MacBook Air or most notebooks running Windows®10 operating system.

² A ONE-TIME SOFTWARE INSTALLATION ENABLES MULTI-FINGER SUPPORT ON MACBOOK AIR NOTEBOOKS.

Sizes

AirBar – Available for MacBook Air and Windows 10 notebooks.

Matte black finish for Windows 10 notebooks with **13.3"**, **14"** and **15.6"** screens. Aluminum finish for MacBook Air notebooks with **13.3"** screens.
